

Remember the exhilarating sound of performance?

CORSA brings back the thrill.

Cadillac STS with Pro-Series 3.5 Tips

Remember when you were young?  
You needed just a clothespin and a couple of playing cards  
to evoke the exhilarating sound of performance that sent your soul  
soaring. The loud growl when you pedaled as fast as your legs  
could carry you...the soft purr as you coasted down the sidewalk  
and into your best friend's driveway.

Today, you're older, wiser and drive better,  
more expensive toys. Yet, you're still looking  
for a way to recapture those days when  
performance had that special sound and feel.

Now you can bring back those exhilarating emotions with the  
CORSA Power-Pulse RSC™ Exhaust System developed  
specifically for your Cadillac DeVille or Seville.
